

CLIMATE COMPENSATED
ORGANISATION

CLIMATE CERTIFICATE 2021

CEMAsys' Climate Certificate™ is hereby issued as proof of planting mangrove trees, for voluntary offsets of own greenhouse gas emissions. As a result of the planting, the project will each year issue climate credits in line with the VERRA Verified Carbon Standard, and these can be tracked in the register with its unique serial number. The project contributes to impacting a number of the UN's sustainability goals.

Organisation	Cloudberry Clean Energy ASA
Offsets cover	Compensation of own organization (203 tCO ₂ e), and Compensation of own employees (297 tCO ₂ e) for year 2021.
Volume (tonnes CO ₂ e)	500
Tree planting	2 500 Mangrove trees (1 ha, 5 trees per tCO ₂ e)
Type	VCU (Verified Carbon Units)
Project name	Reforestation and restoration of degraded mangrove lands in the Thor Heyerdahl Climate Park, sustainable livelihood, and community development in Myanmar.
Project reference	https://registry.verra.org/app/projectDetail/VCS/1764

The climate credits will be annually issued by the VERRA Registry based on a third-party verification, and will be retired from the registry permanently, to ensure no one else can hold or retire them.

Oslo, 17th of March 2022
